

## Riello UPS and Ducati: continuing a winning team

*The winning synergy between the two Italian companies continues in 2024  
both in MotoGP and WorldSBK*

**Legnago, 05 February 2024.** Riello UPS, a brand of the Riello Elettronica group and a world player in the production of uninterruptible power supplies, photovoltaic inverters and Energy Storage systems, announces the renewal of its sponsorship of the Ducati Lenovo Team for the MotoGP World Championship and of the Aruba.it Racing – Ducati Team for the 2024 season WorldSBK Championship.

After the great successes of the last two seasons, in which two Riders' World Championships with Francesco Bagnaia and two Manufacturers' Championships were earned in MotoGP and, in Superbikes, two Riders' Championships with Alvaro Bautista, Riello UPS will proudly continue the long-standing partnership with Ducati on both a sporting and technological level.

In 2024, Riello UPS will see its branding on the front fairing of the Borgo Panigale reds, on the riders' suits (Francesco Bagnaia and Enea Bastianini in MotoGP, and Alvaro Bautista and the new Nicolò Bulega in WorldSBK) and on the team clothing.

The sponsorship is accompanied by a technical partnership deriving from the vision and common commitment towards reducing energy consumption: Riello UPS supplies the two teams with its highly efficient and reliable uninterruptible power supplies. Designed in Italy with cutting-edge technologies and components, these UPS allow you to reduce energy losses by adapting the operating mode based on the real-time load conditions, guaranteeing the reduction of CO<sub>2</sub> emissions.

In particular, Riello UPS supports Ducati and its performance by protecting the fundamental electronic control and communication equipment of the two racing teams, but its solutions are also used to guarantee maximum safety and reliability of Ducati's corporate IT and production systems.

*"We have come from two years of great sporting satisfaction, where together with Ducati and Aruba Racing we won everything there was to win while keeping the flag of Made in Italy technology high. But international markets have also rewarded us with excellent results for our company. - declared **Fabio Passuello, CEO of Riello UPS** – For 2024 we are ready to commit to doing even better, because technological research never stops, in our sector as well as in the racing sector. Our effort is oriented in the field of reducing energy consumption, which is why we will continue to research and develop increasingly green solutions that contribute to the reduction of consumption and CO<sub>2</sub> emissions." - concludes Fabio Passuello.*

*"We are pleased to announce the renewal of our partnership with Riello UPS. – added Luigi Dall'Igna, General Director of Ducati Corse – Since 2007, our collaboration has grown and strengthened. It is a solid relationship, which is based on sharing common philosophies and values such as innovation, territoriality and the constant commitment to establishing itself on the global market. We are proud to be able to count on Riello UPS also in 2024, confident that together we will be able to reach even greater heights".*

*“Riello UPS has been a strategic partner for Aruba for several years now and this is demonstrated by the collaboration reconfirmed also for 2024 in both areas that involve us - technological and sporting: during the season that is about to begin we will defend the title on the track and at the same time we will complete the construction of our new Data Center campus in Rome where the Riello UPS will have the fundamental task of ensuring continuity and quality of the energy supplied to the IT infrastructures.” – commented **Stefano Cecconi, CEO of Aruba and Team Principal Aruba.it Racing – Ducati** – “The continuous search for performance on the one hand and the commitment to technological innovation on the other are factors towards which the our maximum and common commitment, with the plus of Made in Italy.”*

### **Information about Riello UPS**

Riello UPS is the brand of uninterruptible power supplies for Data Centres, electromedical applications, security and emergency equipment, industrial processes, and communication systems, designed and produced by RPS S.p.A., a company based in Italy and part of the Riello Elettronica Group. ### **Information about Ducati**

#### **Ducati Motor Holding S.p.A - Audi Group company - Company subject to the management and coordination of AUDI AG**

Performance, distinctive design, innovative technologies and a lot of passion: this is the belief according to which Ducati, founded in 1926, still works today in the development and production of its world-famous motorcycles. In the Borgo Panigale factory (Bologna, Italy), Ducati realizes the dream of every Ducatista by giving life to motorcycles that are the purest expression of refined engineering, with constant attention to the highest quality standards.

The Italian motorcycle manufacturer has racing in its DNA and competes with official teams in the MotoGP and WorldSBK championships, where it faces each race with determination and the aim of continuously improving its performance and sharing the emotions of the sport with its community. 2023 marked an unprecedented year for Ducati which, for the second consecutive year, became World Champion in both championships, also adding the conquest of the WorldSSP World Title.

Until 2026, the motorcycle manufacturer is also the sole official supplier of motorbikes for the FIM Enel MotoE™ World Cup, the electric class of the MotoGP World Championship which sees 18 high-performance electric motorbikes developed and produced by the Borgo Panigale company on the track. From the 2024 season a new, historic chapter opens for Ducati which officially enters the world of off-road by debuting in the Italian Motocross Championship.

Moved by passion and fueled by the racing spirit, Ducati proudly brings "Made in Italy" to over 90 countries around the world.

### **Information about Aruba**

**Aruba S.p.A** founded in 1994, is the main Italian cloud services provider and the leader in Italy for data center, cloud, hosting, trust services, e-mail, PEC, domain registration and digital signature services. The company, with entirely Italian capital, is aimed at private individuals, professionals, businesses and the Public Administration. Aruba manages a vast infrastructure which includes 2.7 million registered domains, 9.8 million email accounts, 9 million PEC accounts and 130,000 managed servers, offering services to a total of 16 million users. Aruba PEC and Actalis are the two Certification Authorities of Aruba, both accredited by AgID (Agency for Digital Italy), and provide qualified services in the field of IT security, including digital signature. In March 2021, Aruba expanded its offering by entering the telecommunications market with ultra-broadband connectivity services throughout the national territory. These services are based on Open Fiber's full fiber optic network (FTTH - Fiber To The Home). In almost 30 years of activity, Aruba has developed extensive experience in the design and management of high-tech data centers, owned and distributed throughout Italy. The largest

is located in Ponte San Pietro, in the province of Bergamo, and is characterized by "green by design" infrastructures and systems compliant with the highest safety standards in the sector (Rating 4 ANSI/TIA-942 and ISO 22237), as well as designed to minimize environmental impact. Since 2015, Aruba has completely satisfied its energy needs using 100% energy from renewable sources. Furthermore, it produces further clean energy through photovoltaic systems, groundwater cooling systems and hydroelectric power plants. Aruba is also committed to implementing energy efficiency solutions in its data centers, demonstrating its commitment to sustainability. The infrastructure network also extends into Europe, with a proprietary data center in the Czech Republic and partner facilities located in France, Germany, Poland and the United Kingdom. This international presence allows Aruba to offer integrated services and solutions at a European level. Aruba is actively involved in the community, supporting social projects and cultural initiatives. The company promotes digital inclusion, technological training and support for innovation through programs and partnerships with third sector bodies, institutions and organisations. Furthermore, Aruba has established strategic partnerships with major technological and institutional companies that allow it to offer integrated, high-quality solutions to customers, guaranteeing complete and reliable services in the field of digital technologies. With a strong presence on the Italian market and a growing relevance at an international level, Aruba stands out for its leadership in the cloud services sector, data | Press release center and connectivity solutions. Aruba is committed to technological innovation, sustainability and the development of cutting-edge solutions. The company continues to invest in research and development to offer its customers advanced services and products and meet the increasingly complex and diverse needs of customers, adapting to the ever-changing digital market.
